

Rosenberg Library

Presents

Intro to 3D Design

A **FREE** course

Learn the basics of new 3D printing technology and become familiar with 3D design programs & resources!

At the end of this class, you will:

- Be familiar with the library's 3D designing programs
- Know where to go for design inspiration and community support on various digital design websites
- Download designs by other creators from the internet to print or modify

Please note: You must be proficient with computers to attend this class.

The topics covered in this class are not for those with limited knowledge or experience with computers.

To register, see lab attendant or call
(409) 763 - 8854 ext. 130

Rosenberg Library

Presents

3D Printing

**Turn your ideas into reality with the
Rosenberg Library's 3D printer!**

You can print anything you can think of in a variety of different materials and colors! Whether the design is downloaded from the internet or you make it using the design programs available in the library, the power of creation is at your fingertips!

The cost of printing your design is calculated using the weight of the finished product at 15¢ per gram.

Please note: Designs to be printed must be brought on a flash drive in the .STL file format and be ready for printing at time of appointment.

To make a printing appointment, see
lab attendant or call
(409) 763 - 8854 ext. 130
